FLUID HOSPITAL · SCEPTRECARE PRACTICE MANAGEMENT

Hospital & Medical Practice

One practice. One patient record. One system.

For general practices, specialist clinics, day hospitals and small hospitals. Appointments, consultations, admissions, prescriptions, results, referrals, care plans and claims all sit on one patient record — with the practice's accounts in the same place.

WHAT IT RUNS

- Appointment book, waiting room and recalls and reminders that chase themselves
- Clinical record: problems, allergies, immunisations, observations with early-warning scores
- Prescriptions, lab and imaging orders and a results in-tray
- Wards, beds, admissions, procedures and discharge summaries for inpatient care
- Chronic-disease care plans, referrals and correspondence
- Insurer, government-scheme and veterans' claims, health funds, billing mix by practitioner

THE APPS

Staff system

for practice manager, reception, clinicians, ward clerks, billing

the whole practice, front desk to ledger

Patient app

for patients

their appointments, results, reminders, prescriptions, immunisations, care plan and account

WHO SIGNS IN

Practice manager · Reception · Clinician · Ward clerk · Billing · Biomedical

STANDARD IN EVERY EDITION

One set of books
Ledger, cashbook, sales, purchases and assets — shared by all

Every view audited
Who saw what, and when, on every record

Signatures & retention
Electronic signatures, records retention and legal holds

The AI Clean Gate
Every photo and post checked before anyone sees it

Messages & notices
Feed, calendar, two-way messages and self-registration

> “The patient sees the same record the clinician sees — nothing retyped, nothing lost.
