FLUID MARKETPLACE · MARKETPLACE EDITION

Online Marketplace

Every seller, every listing, every parcel — one record of truth.

For multi-vendor marketplaces. Sellers apply and are approved, listings are reviewed before they go live, shoppers pay by card at one checkout, orders split automatically into a parcel per seller, and payouts and commission are calculated without a spreadsheet.

WHAT IT RUNS

- Seller applications, approval and commission rates
- Listings with photos, prices and stock — approved before they are shown
- One basket, one card payment, then one fulfilment per seller
- Shipments with carrier and tracking visible to the shopper
- Reviews moderated before publication
- Supplier payouts, marketplace sales and commission
