FLUID PLANT MAINTENANCE · PLANT MAINTENANCE EDITION

Plant & Equipment Maintenance

Request, order, spares, downtime — and the asset's true cost.

For manufacturers, processing plants and any operation that depends on its machines. Equipment and functional locations, preventive plans by time, meter or condition, requests from the floor, work orders with checklists and spares from stock — with MTBF, MTTR and availability worked out for you. Runs on its own or beside any edition.

WHAT IT RUNS

- Equipment, locations, a failure catalogue and the spares each one needs
- Preventive plans by time, meter or condition — due orders raised automatically
- Requests with a photo and “machine stopped”; work orders from request to close
- Spares issued from stock to the ledger, contractor invoices, cost to the asset
- Downtime log, MTBF, MTTR, availability and a health rating per machine
- Planning board, schedule by work centre and calendar by technician

THE APPS

Staff system
for planners, technicians, production and accounts
the plant, its plans and its costs

Contractor app
for maintenance contractors
jobs assigned to them: accept, progress, done

WHO SIGNS IN

Planner · Technician · Production · Accounts · Contractor

STANDARD IN EVERY EDITION

One set of books
Ledger, cashbook, sales, purchases and assets — shared by all

Every view audited
Who saw what, and when, on every record

Signatures & retention
Electronic signatures, records retention and legal holds

The AI Clean Gate
Every photo and post checked before anyone sees it

Messages & notices
Feed, calendar, two-way messages and self-registration

> “The compressor ran hot at 97 °C — the inspection was already with the contractor.
