AN INVITATION · FLUIDERP PARTNER PROGRAMME 2026

Partner with FLUIDERP

> *Forty editions, one platform — and a share of every client you bring.*

Sceptre Tech & Science invites resellers, consultants, implementers and industry specialists to bring FLUIDERP to the organisations they know — schools, hospitals, mines, councils, insurers, churches and more. You bring the relationship; we deliver the system through FLUIDCLOUD; you earn a commission on the revenue, rising with every tier you reach.

PARTNER TIERS · COMMISSION ON REVENUE

GENERAL SALES
15% ●○○○○○
Introduce a client — no minimum

STANDARD PARTNER
25% ●●○○○○
Signed partner agreement

BRONZE PARTNER
30% ●●●○○○
At least USD 30,000 revenue

SILVER PARTNER
35% ●●●●○○
At least USD 50,000 revenue

GOLD PARTNER
40% ●●●●●○
At least USD 100,000 revenue

PLATINUM PARTNER
45% ●●●●●●
10 clients and over USD 100,000 revenue

Commission is a percentage of FLUIDERP revenue — subscriptions, implementation and services — invoiced to and paid by the clients you introduce. Tier thresholds are measured on that revenue over a rolling 12 months. Full terms are set out in the partner agreement.

WHAT PARTNERS GET

- **A partner sign-in on FLUIDCLOUD** — register the clients you introduce, follow their projects and raise requests to our team
- **Forty ready-made editions** — a go-live package for each sector, configured to the client rather than custom-built
- **Everything a prospect needs to see** — demo videos, user manuals and this brochure online — and services clients can buy by card
- **We stand behind you** — our team joins your demonstrations and delivers the implementation and support

HOW TO JOIN

1
Say yes
Reply to ard@sceptretechscience.com or call +61 460 545 813.

2
Sign and sign in
We send the partner agreement and your FLUIDCLOUD partner login.

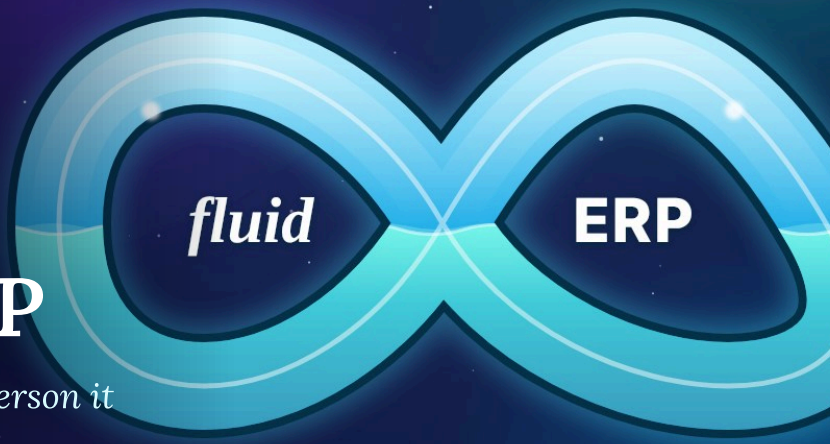

3
Bring your first client
Register the opportunity — your commission starts with the first invoice.

> "You know the institutions. We built the system they run on. Let's take it to them together.

SCEPTRE TECH & SCIENCE

FLUIDERP
The Ultimate ERP

One platform. Every institution. Every person it serves — on their phone.

FLUIDERP is a complete business system for organisations of every kind — a hospital, a council, a credit union, a school, a law firm, an airline's maintenance hangar, a grain co-op. Each edition is a ready-made, go-live package: install it and the institution is implemented. The same platform, the same apps, the same set of books — shaped for the work your people actually do.

One set of books

Every edition shares the same accounting core — general ledger, cashbook, sales, purchases and fixed assets. A levy, a claim, a tuition fee, a grower settlement: every amount, in any currency, lands in one ledger, the day it happens, without being retyped.

An app for everyone you serve

Every staff system comes paired with apps for the people outside the office — patients, parents, ratepayers, policyholders, members, growers, contractors. They register themselves, see only what is theirs, and act from their phone.

Trust built in

Every view is audited. Electronic signatures, records retention and legal holds are standard. An AI Clean Gate checks every photo and post before anyone sees it, and under-18s are protected by guardian links — in every edition, not as an add-on.

HOW IT ARRIVES

1
Describe your business
Tell us what your organisation does, who works in it and who it serves.

2
FLUID AI configures it
The edition is shaped to you — configuration, not custom programming.

3
The cloud runs it
Provisioned, licensed and supported through FLUIDCLOUD, with releases managed for you.

4
Download your apps
Your staff and the people you serve sign in on the web or on their phone.

40 EDITIONS IN THIS BROCHURE

- **Health & Care** 4 editions
- **Commerce, Industry & Supply Chain** 13 editions
- **Education, Faith & Community** 6 editions
- **Infrastructure & Critical Operations** 9 editions
- **Government, Finance & Professional Practice** 7 editions
- **The Platform** 1 edition

FLUID SECURITY · SECURITY OPERATIONS EDITION

Security Operations Centre

Events, rules, alerts, incidents, indicators, exposure and controls.

For security operations teams, managed security providers and governance, risk and compliance functions. Assets and security events, detection rules that raise one alert per episode, incidents and response actions, threat indicators, vulnerabilities past their date, control evidence and asset risk — with an app for the people who own the systems.

WHAT IT RUNS

- Assets, security events and events by host
- Detection rules, rule quality and the alert queue by tactic and severity
- Incidents, response actions and attack-technique coverage
- Threat indicators and their hits
- Vulnerabilities, exposure by system and severity, fix-by dates
- Controls and evidence; control posture and asset risk

THE APPS

Staff system
for analysts, responders, SOC lead, CISO, GRC
the operations floor

Security app
for system owners and staff
report something suspicious, see their systems and findings with fix-by dates

WHO SIGNS IN

Analyst · Responder · SOC lead · CISO · GRC

STANDARD IN EVERY EDITION

One set of books
Ledger, cashbook, sales, purchases and assets — shared by all

Every view audited
Who saw what, and when, on every record

Signatures & retention
Electronic signatures, records retention and legal holds

The AI Clean Gate
Every photo and post checked before anyone sees it

Messages & notices
Feed, calendar, two-way messages and self-registration

> A phishing email reported from the phone is in the analyst's queue in seconds.

FLUID SCHOOL · SCEPTREONE — SCHOOL MANAGEMENT SYSTEM

School

> *One school. One system. One record.*

For primary and secondary schools. Admissions, enrolments, timetables, attendance, results, the library, incidents and fees — plus a school app for parents and students that is also the school's own safe social space.

WHAT IT RUNS

- Online applications, admissions pipeline and enrolments
- Year levels, houses, classes, timetables and attendance
- Exam results, course content and teaching timetables
- Library catalogue, loans and overdues
- Fee structures, invoices, receipts and online payments; guardian statements
- Incident register and announcements; circles for classes, clubs and teams

THE APPS

Staff system
for principal, registrar, admissions, teachers, librarian, bursar
the school office and classroom

School app
for applicants, parents, students
apply to enrol, the school feed, timetable, results, fees, statement, library and circles — with under-18 protections built in

WHO SIGNS IN

Head · Admissions · Registrar · Teacher · Librarian · Bursar

STANDARD IN EVERY EDITION

One set of books
Ledger, cashbook, sales, purchases and assets — shared by all

Every view audited
Who saw what, and when, on every record

Signatures & retention
Electronic signatures, records retention and legal holds

The AI Clean Gate
Every photo and post checked before anyone sees it

Messages & notices
Feed, calendar, two-way messages and self-registration

> "The newsletter, the timetable and the fee statement — all in the parent's pocket.

FLUID PLANT MAINTENANCE · PLANT MAINTENANCE EDITION

Plant & Equipment Maintenance

Request, order, spares, downtime — and the asset's true cost.

For manufacturers, processing plants and any operation that depends on its machines. Equipment and functional locations, preventive plans by time, meter or condition, requests from the floor, work orders with checklists and spares from stock — with MTBF, MTTR and availability worked out for you. Runs on its own or beside any edition.

WHAT IT RUNS

- Equipment, locations, a failure catalogue and the spares each one needs
- Preventive plans by time, meter or condition — due orders raised automatically
- Requests with a photo and “machine stopped”; work orders from request to close
- Spares issued from stock to the ledger, contractor invoices, cost to the asset
- Downtime log, MTBF, MTTR, availability and a health rating per machine
- Planning board, schedule by work centre and calendar by technician

THE APPS

Staff system
for planners, technicians, production and accounts
the plant, its plans and its costs

Contractor app
for maintenance contractors
jobs assigned to them: accept, progress, done

WHO SIGNS IN

Planner · Technician · Production · Accounts · Contractor

STANDARD IN EVERY EDITION

One set of books
Ledger, cashbook, sales, purchases and assets — shared by all

Every view audited
Who saw what, and when, on every record

Signatures & retention
Electronic signatures, records retention and legal holds

The AI Clean Gate
Every photo and post checked before anyone sees it

Messages & notices
Feed, calendar, two-way messages and self-registration

> “The compressor ran hot at 97 °C — the inspection was already with the contractor.

FLUID NEWSROOM · NEWSROOM EDITION

Newsroom & Media Group

The story budget, the wire, the rundown clock, embargo and corrections.

For newspapers, broadcasters and digital publishers. Desks and beats, the story budget, the wire inbox, pictures, video and audio with their rights, bulletins and rundowns on a clock that back-times to the hard out, embargoes, corrections, contributor fees and syndication — with a contributor app.

WHAT IT RUNS

- Desks, beats and the story budget; pipeline by desk and where the news is
- Wire inbox from the agencies
- Pictures, video and audio with rights that expire
- Bulletins and rundowns with the running clock and the seconds to cut
- Embargoes, scheduled release and the corrections register
- Contributor fees and syndication licences and revenue

THE APPS

Staff system
for editors, sub-editors, reporters, producers, legal, commercial
the newsroom

Contributor app
for stringers and freelancers
pitch or file a story with location and photos, follow the story and the fee

WHO SIGNS IN

Editor · Sub-editor · Reporter · Producer · Legal · Commercial

STANDARD IN EVERY EDITION

One set of books
Ledger, cashbook, sales, purchases and assets — shared by all

Every view audited
Who saw what, and when, on every record

Signatures & retention
Electronic signatures, records retention and legal holds

The AI Clean Gate
Every photo and post checked before anyone sees it

Messages & notices
Feed, calendar, two-way messages and self-registration

> “File from the field; it lands in the story budget with the GPS and the pictures attached.

FLUID MINING · MINING EDITION

Mining — Pit to Port

Block, blast, haul, crush, rail, ship — one movement ledger, one set of books.

For open-pit miners, mining contractors and processors. The block model reconciled to grade control; every haul, blast, stockpile and train on one ledger through to the vessel; fleet maintenance, component life and condition alarms; cost per tonne by pit; USD shipments with royalties accrued — and a site app that keeps working with no signal.

WHAT IT RUNS

- Block model, grade control and reconciliation — plan against actual
- Shifts, haul cycles, drill & blast, stockpiles by tonnes and grade
- Rail and shipping: dry tonnes, grade-adjusted price, USD invoice with royalty accrued
- Fleet maintenance, component life and condition alarms that raise the work
- Cost per tonne moved and per tonne of ore; fuel and explosives from stores
- HSEQ: incidents, hazards, permits, tickets, pre-starts and LTIFR by pit

THE APPS

Staff system

for geology, operations, maintenance, logistics, HSEQ and finance

the mine from block to vessel

Site app

for operators and contractors

pre-starts, hazards and incidents from the phone — works with no signal

WHO SIGNS IN

Geology · Operations · Maintenance · Logistics · HSEQ · Finance

STANDARD IN EVERY EDITION

One set of books
Ledger, cashbook, sales, purchases and assets — shared by all

Every view audited
Who saw what, and when, on every record

Signatures & retention
Electronic signatures, records retention and legal holds

The AI Clean Gate
Every photo and post checked before anyone sees it

Messages & notices
Feed, calendar, two-way messages and self-registration

> “A reclassified block goes to the low-grade pile at the grade the ground gave.

FLUID MANUFACTURING · MANUFACTURING EDITION

Manufacturing

Sales, bills of material, works orders, the schedule — and the plant that makes it.

For make-to-order and make-to-stock manufacturers. CRM and quoting, bills of material and routings, works orders and the production schedule, stock and stocktakes, plus plant maintenance: equipment, preventive plans, breakdowns, spares and contractors — with the customer portal and the accounts built in.

WHAT IT RUNS

- Leads, opportunities, quotations and order confirmations
- Bills of material with cost sheets, routings and work centres
- Works orders, job cards, work in progress and the production schedule
- Plant maintenance: equipment, preventive plans, job cards, downtime and failure analysis
- Equipment KPIs — reliability, repair time, availability and cost
- Stock, stocktakes, spares short and below reorder

THE APPS

Staff system
for admin, sales, production, accounts, maintenance
front office to factory floor

Customer portal
for customers and maintenance contractors
their orders, account, requests — and jobs assigned to contractors

WHO SIGNS IN

Admin · Sales · Production · Accounts · Maintenance

STANDARD IN EVERY EDITION

One set of books
Ledger, cashbook, sales, purchases and assets — shared by all

Every view audited
Who saw what, and when, on every record

Signatures & retention
Electronic signatures, records retention and legal holds

The AI Clean Gate
Every photo and post checked before anyone sees it

Messages & notices
Feed, calendar, two-way messages and self-registration

> “The quote becomes the works order becomes the invoice — nobody types it twice.

FLUID DISTRIBUTION · DISTRIBUTION EDITION

Wholesale Distribution

> *Quote, order, pick, ship, invoice — one chain, one set of books.*

For wholesalers and distributors. The full sales chain from quote to delivery and invoice, stock by location with serial numbers and transfers, picking lists, carriers and routes, proof of delivery, returns and landed costs — with a trade portal for customers.

WHAT IT RUNS

- Sales quotes, orders, order book and backorders; available to promise
- Picking lists, delivery manifests, carriers, routes and proof of delivery
- Stock by item and location, cycle counts, transfers and scanning batches
- Serial numbers with genealogy and where-used
- Customer returns (RMA) and landed cost allocated by purchase order
- Sales by customer and period, sales trend

THE APPS

Staff system

for sales desk, warehouse, dispatch, operations manager

the office and the warehouse floor

Trade portal

for trade customers

their orders, deliveries, requests and news

WHO SIGNS IN

Sales desk · Warehouse · Dispatch · Ops manager

STANDARD IN EVERY EDITION

One set of books
Ledger, cashbook, sales, purchases and assets — shared by all

Every view audited
Who saw what, and when, on every record

Signatures & retention
Electronic signatures, records retention and legal holds

The AI Clean Gate
Every photo and post checked before anyone sees it

Messages & notices
Feed, calendar, two-way messages and self-registration

> “ Promise a date you can keep — the system already knows what is available.

FLUID HOSPITAL · SCEPTRECARE PRACTICE MANAGEMENT

Hospital & Medical Practice

One practice. One patient record. One system.

For general practices, specialist clinics, day hospitals and small hospitals. Appointments, consultations, admissions, prescriptions, results, referrals, care plans and claims all sit on one patient record — with the practice's accounts in the same place.

WHAT IT RUNS

- Appointment book, waiting room and recalls and reminders that chase themselves
- Clinical record: problems, allergies, immunisations, observations with early-warning scores
- Prescriptions, lab and imaging orders and a results in-tray
- Wards, beds, admissions, procedures and discharge summaries for inpatient care
- Chronic-disease care plans, referrals and correspondence
- Insurer, government-scheme and veterans' claims, health funds, billing mix by practitioner

THE APPS

Staff system

for practice manager, reception, clinicians, ward clerks, billing

the whole practice, front desk to ledger

Patient app

for patients

their appointments, results, reminders, prescriptions, immunisations, care plan and account

WHO SIGNS IN

Practice manager · Reception · Clinician · Ward clerk · Billing · Biomedical

STANDARD IN EVERY EDITION

One set of books
Ledger, cashbook, sales, purchases and assets — shared by all

Every view audited
Who saw what, and when, on every record

Signatures & retention
Electronic signatures, records retention and legal holds

The AI Clean Gate
Every photo and post checked before anyone sees it

Messages & notices
Feed, calendar, two-way messages and self-registration

> “The patient sees the same record the clinician sees — nothing retyped, nothing lost.

FLUID FINANCE · FINANCE INSTITUTION EDITION

Credit Union, Microfinance & Lender

Core banking for a mutual — lending, deposits, tellers, compliance.

For credit unions, microfinance institutions, community banks and small lenders. Products, clients with KYC, loans and repayment schedules, savings and term deposits, teller shifts, collateral, group lending and AML alerts — with a client app for applying and self-service.

WHAT IT RUNS

- Loan, savings and term-deposit products with rates, terms and fees
- Loan accounts, repayment schedules, receipts, reschedules under dual control
- Savings and deposits, dormancy, maturities and deposit concentration
- Portfolio at risk, arrears ageing, provisioning and collections
- Teller shifts with till counts, over and short
- KYC reviews, AML and compliance alerts, branch dashboard

THE APPS

Staff system
for branch manager, loans officers, tellers, compliance
the branch and the back office

Client app
for clients
their loans and schedule, savings, term deposits, products — and apply for a loan

WHO SIGNS IN

Branch manager · Loans officer · Teller · Compliance

STANDARD IN EVERY EDITION

One set of books
Ledger, cashbook, sales, purchases and assets — shared by all

Every view audited
Who saw what, and when, on every record

Signatures & retention
Electronic signatures, records retention and legal holds

The AI Clean Gate
Every photo and post checked before anyone sees it

Messages & notices
Feed, calendar, two-way messages and self-registration

> “Every loan, every deposit and every till count land in the same general ledger, the same day.

FLUID CONSULTANCY · CONSULTING PROJECT INTELLIGENCE

Consulting & Economic Advisory

> *Evidence, models and judgement — one project record.*

For consulting firms, economic advisers and project-intelligence practices. From lead to opportunity, bid decision, proposal and contract into a project baseline without re-keying; skills-matched resourcing, time, expenses, invoicing and margin; economic models with scenarios; deliverables reviewed and released to the client.

WHAT IT RUNS

- Pipeline, proposals priced off the rate card, contracts and variations
- Resource matching by skill, capacity heat maps and utilisation versus target
- Work breakdown, milestones, risks, stakeholders and deliverables with versions
- Timesheets, expenses, WIP, invoicing, EAC/VAC and the project profit waterfall
- Economic models, assumptions, scenarios and runs — NPV, BCR, IRR, sensitivity
- Revenue forecast and recognition, client concentration, win rate by sector

THE APPS

One system, nine roles

for partners, business development, project managers, consultants, economists, reviewers, finance

each with their own view

Client view

for clients

released work only — the dashboard and deliverables they are entitled to see

WHO SIGNS IN

Partner · BD · Project manager · Consultant · Economist · Reviewer · Finance

STANDARD IN EVERY EDITION

One set of books
Ledger, cashbook, sales, purchases and assets — shared by all

Every view audited
Who saw what, and when, on every record

Signatures & retention
Electronic signatures, records retention and legal holds

The AI Clean Gate
Every photo and post checked before anyone sees it

Messages & notices
Feed, calendar, two-way messages and self-registration

> “The number in the proposal is the number in the contract is the number in the project.

FLUID CARE · SCEPTRECARE — CARE MANAGEMENT SYSTEM

Residential Aged Care

> *One resident. One record. Every carer, nurse, doctor and family member on the same page.*

For aged-care homes and residential care providers. Everything about a resident — their care plan, medications, daily notes, vitals, meals, incidents and visits — lives in one record that the whole team works from, with the roster, timesheets and payroll running off the same system.

WHAT IT RUNS

- Care plans, progress notes and daily rounds for every resident, wing and bed
- Electronic medication charts with doses due, missed or refused — and renewals before they lapse
- Vitals, nutrition, hydration and personal-care logs with critical observations flagged
- Incident and accident reporting, including the reportable-incident register
- Rosters, skill mix, geo-verified clock-ins, staff compliance expiries and the pay run
- A daily summary written for the family, automatically

THE APPS

Staff system

for carers, nurses, care manager, admin, payroll, finance

the full resident record and the business behind it

Family app

for next of kin and guardians

their family member's day, appointments, care plan, statements and notices — on their phone

Provider app

for visiting doctors, allied health, legal representatives, the regulator

role-scoped access to only the residents they are responsible for

WHO SIGNS IN

Care manager · Supervisor · Nurse · Carer · Payroll · Finance

STANDARD IN EVERY EDITION

One set of books
Ledger, cashbook, sales, purchases and assets — shared by all

Every view audited
Who saw what, and when, on every record

Signatures & retention
Electronic signatures, records retention and legal holds

The AI Clean Gate
Every photo and post checked before anyone sees it

Messages & notices
Feed, calendar, two-way messages and self-registration

> “ Families stop ringing to ask how Mum is — they already know.

FLUID NGO · CHARITY & NGO EDITION

Charity & NGO

Donors, programs, grants and the people you serve — one organisation.

For charities, foundations and non-government organisations. Fundraising on one side, programs and casework on the other, and a single set of accounts underneath — so the board sees how every dollar raised became help delivered.

WHAT IT RUNS

- Donors, appeals, pledges, gifts and tax-deductible-giving claims
- Funds with summaries and donor statements
- Programs, grants and grant reporting
- Beneficiaries, casework and case load
- Volunteers and aid distributions with a distribution log
- Supporter feed, calendar, requests and online registration

THE APPS

Staff system

for CEO, fundraising, programs, finance

fundraising, programs and the books

Supporter app

for donors and supporters

news, their giving history, account and requests

WHO SIGNS IN

CEO · Fundraising · Programs · Finance officer

STANDARD IN EVERY EDITION

One set of books
Ledger, cashbook, sales, purchases and assets — shared by all

Every view audited
Who saw what, and when, on every record

Signatures & retention
Electronic signatures, records retention and legal holds

The AI Clean Gate

Messages & notices
Feed, calendar, two-way messages and self-registration

> “From appeal to receipt to program outcome, without re-keying a thing.

FLUID CHURCH · CHURCH EDITION

Church & Denomination

Provinces, parishes, members — and giving reconciled through the bank.

For churches, parishes and denominations of any size. Membership, small groups, ministries, services and attendance, with pledges, gifts and funds flowing straight into the books — and a member app for giving, notices and requests.

WHAT IT RUNS

- Provinces, parishes and members, with a parish directory
- Small groups, ministries, services and attendance
- Funds, pledges, gifts and receipts; giving statements for members
- Donor ledger reconciled through the cashbook
- Announcements, calendar and two-way messages
- Member requests and online registrations

THE APPS

Staff system
for pastor, parish clerk, treasurer
the parish office

Member app
for members
the parish feed, calendar, their giving, requests and messages

WHO SIGNS IN

Pastor · Parish clerk · Treasurer

STANDARD IN EVERY EDITION

One set of books
Ledger, cashbook, sales, purchases and assets — shared by all

Every view audited
Who saw what, and when, on every record

Signatures & retention

The AI Clean Gate
Every photo and post checked before anyone sees it

Messages & notices
Feed, calendar, two-way messages and self-registration

> “Every gift is receipted, every fund balances, every member sees their own statement.

FLUID COMMUNITIES · CLUB & MEMBERSHIP EDITION

Clubs & Membership Organisations

Members, subscriptions, venues and events.

For sports clubs, social clubs, veterans' and services clubs, associations and societies. Membership types and renewals, event bookings and attendance, venues and the treasurer's books — with a member app for subscriptions and bookings.

WHAT IT RUNS

- Membership types, members with photos, status and expiry
- Subscription runs and expiring memberships
- Venues, events, bookings and attendance
- Member statements and invoices in the sales ledger
- Announcements, messages and member requests
- Online registration for new members

THE APPS

Staff system
for club manager, front desk, events team, treasurer
the clubhouse office

Member app
for members
their subscriptions, event bookings, account, feed and calendar

WHO SIGNS IN

Club manager · Front desk · Events team · Treasurer

Messages & notices
Feed, calendar, two-way messages and self-registration

> “Renewals go out on time and members book the dinner from their phone.

FLUID ENVIRONMENT-ESG · ENVIRONMENT & ESG EDITION

Environment, Emissions & ESG

The boundary, the inventory, the trend and the assurance.

For resource companies, industrial groups and anyone with environmental obligations and ESG reporting. The reporting boundary of a corporate group, emissions inventories built from activity data and factors, utility bills and meters, monitoring points with results and trends, obligations and conditions, incidents and complaints, disclosures and assurance.

WHAT IT RUNS

- Group and boundary; the inventory on gross, control, parent and equity bases
- Activity data, emission factors and unit conversions
- Meters, utility bills and consumption by utility
- Monitoring points, samples, results, trend assessments and exceedances
- Obligations and conditions; incidents, hazards and complaints
- Disclosure register and assurance credentials

THE APPS

Staff system
for environment, energy, HSE, reporting, assurance
the sustainability office

Community app
for neighbours and stakeholders
raise a concern, see the monitoring results, see what we report

WHO SIGNS IN

Environment · Energy · HSE · Reporting · Assurance

STANDARD IN EVERY EDITION

Messages & notices
Feed, calendar, two-way messages and self-registration

> A neighbour's complaint about dust becomes an incident with an owner and a due date.

FLUID INSURANCE · INSURANCE EDITION

Insurer & Mutual

Policy, billing, claims and reinsurance for a mutual insurer.

For general insurers, mutuals and friendly societies. Products with their rating tables, quotes and policies, instalments, endorsements, claims with payments, reinsurance treaties and recoveries, broker commissions and group life schemes — built to the practices of the leading insurance systems, with the regulatory rules of each jurisdiction held as configuration.

WHAT IT RUNS

- Products, coverages and rate tables; quotes that become policies
- Premium instalments, taxes and duties by jurisdiction; renewals and expiries
- Claims register and claim files, payments and the claims development triangle
- Reinsurance treaties and recoveries; unearned premium reserve
- Broker commission statements and group life schemes
- Underwriting dashboard, loss ratio by product and certificates of currency

THE APPS

Staff system

for underwriters, claims officers, finance, compliance

the underwriting room and the claims desk

Policyholder app

for policyholders

their policies, coverages, instalments, claims and payments — lodge a claim with photos

Broker app

for brokers

their clients' policies and claims, their commission — and request a quote

WHO SIGNS IN

Underwriter · Claims officer · Finance · Compliance

STANDARD IN EVERY EDITION

One set of books
Ledger, cashbook, sales, purchases and assets — shared by all

Every view audited
Who saw what, and when, on every record

> A claim lodged with photos from the roadside is on the assessor's desk before the tow truck arrives.

FLUID LEGAL · LEGAL PRACTICE EDITION

Legal Practice

> *Matters, time, trust, bills, conflicts and barriers — one file.*

For law firms and in-house legal teams. Matters and parties, conflicts checks with the reason in words, ethical walls that nobody can bypass, time and disbursements, bills, a trust ledger kept to the letter, documents and the key dates and limitation periods that must never be missed.

WHAT IT RUNS

- Matters, parties and related parties; key dates and limitation periods
- Conflicts checks scored with a plain-English reason
- Ethical walls (information barriers) with every refused attempt logged
- Time entries, rate cards, disbursements, work in progress and bills
- Trust ledger, trust payment requests and trust statements by matter
- Billing by practice area, bills outstanding and matter recovery

THE APPS

Staff system
for partners, solicitors, paralegals, conflicts, accounts
the practice

Client app
for clients
their matters, bills, shared documents and the money held in trust — entry by entry

WHO SIGNS IN

Partner · Solicitor · Paralegal · Conflicts · Accounts

STANDARD IN EVERY EDITION

FLUID LABORATORY · LABORATORY EDITION

Analytical & Clinical Laboratory

Signed, sealed, retained.

For testing laboratories — environmental, food, pharmaceutical and clinical bioanalysis. Samples, methods, specifications, instruments, results, out-of-specification investigations and certificates of analysis, with the document control and electronic signatures regulators expect.

WHAT IT RUNS

- Sample register from receipt to certificate, with turnaround due this week
- Test methods, specifications and limits; results checked against them automatically
- Out-of-specification investigations and the OOS rate by method
- Instrument calibration, reagents and reference materials
- Controlled documents (SOPs), electronic signatures and records retention
- Clinical studies and subjects for bioanalysis, with blinding respected

THE APPS

Staff system

for lab manager, analysts, quality, reception, finance

the laboratory and its quality system

Client app

for clients

their samples, results with limits, signed certificates — and request testing from the price list

WHO SIGNS IN

Lab manager · Analyst · Quality · Reception · Finance

STANDARD IN EVERY EDITION

Feed, calendar, two-way messages and self-registration

> “A certificate the client downloads is the certificate the laboratory signed — provably.

FLUID MARKETPLACE · MARKETPLACE EDITION

Online Marketplace

Every seller, every listing, every parcel — one record of truth.

For multi-vendor marketplaces. Sellers apply and are approved, listings are reviewed before they go live, shoppers pay by card at one checkout, orders split automatically into a parcel per seller, and payouts and commission are calculated without a spreadsheet.

WHAT IT RUNS

- Seller applications, approval and commission rates
- Listings with photos, prices and stock — approved before they are shown
- One basket, one card payment, then one fulfilment per seller
- Shipments with carrier and tracking visible to the shopper
- Reviews moderated before publication
- Supplier payouts, marketplace sales and commission

THE APPS

Operations system
for marketplace admin, catalogue team, operations, finance
the platform behind the shop

Shop app
for shoppers
browse, buy, track parcels, review

Seller portal
for sellers
list it, ship it, get paid

WHO SIGNS IN

Marketplace admin · Catalogue · Operations · Finance

STANDARD IN EVERY EDITION

> “ Thousands of products from trusted sellers, one checkout.

PHARMACY EDITION

Community Pharmacy

Every script, every batch, every register entry — accounted for.

For community and hospital pharmacies. Dispensing, the controlled-drug register, stock by batch and expiry, national-scheme claiming and wholesaler receipts — in one place, with the patient's own app for repeats and reminders.

WHAT IT RUNS

- Patients, prescribers, allergies and alerts on one profile
- Prescriptions and dispensing with labels and a dispensing journal
- Controlled-drug register with running balances
- Stock by batch, expiring stock in the next 90 days, product recalls
- National-scheme fee schedules and claim batches, ready to submit
- Wholesaler receipts straight into stock and the purchase ledger

THE APPS

Staff system

for pharmacists, owner, assistants

dispensary, register and stock

Patient app

for patients

their scripts, repeats due, supplies and reminders — request a repeat from the phone

WHO SIGNS IN

Pharmacist · Owner · Assistant

SCEPTRE TRAINING

Training Academy & Learning Marketplace

> *Trainers earn. Students achieve. Institutions invest in talent.*

For training organisations, tutoring businesses and learning marketplaces. Trainers propose courses, students enrol and pay, lessons, quizzes, assignments and live sessions run inside the course, and sponsors fund scholarships and campaigns — all settled through one set of accounts.

WHAT IT RUNS

- Course catalogue with subjects and levels (including Cambridge O Level), enrolments and fees
- Modules, lessons, quizzes, assignments, live sessions, progress and certificates of completion
- Course circles and study groups that only enrolled students can see
- Trainer earnings and the platform's revenue share, automatically
- Scholarships, applications and sponsor advertising campaigns
- Parents and guardians link and consent for students under 18

THE APPS

Staff system
for academy, finance, partnerships, support
the record of truth for courses, people and money

Learn app
for students, trainers, parents and guardians
enrol, learn, pay, earn, set goals and apply for scholarships

Partner app
for sponsors and institutions

> “A trainer is paid their share the moment a fee is settled — no spreadsheet in between.

GLOBAL SCHOLAR NETWORK

Scholarship Academy

> *Talent should be discoverable regardless of geography, family income or access to elite networks.*

For foundations, scholarship providers and education networks. Students build a verified learning record, scholarships publish their requirements in plain language, and every applicant can see exactly where they stand — with safeguarding and privacy at the centre.

WHAT IT RUNS

- Students (including minors with guardians), schools, consents and verified trainers
- Courses, learning content and progress; results verified by reviewers
- Scholarships with structured requirements and an eligibility explainer per requirement
- Applications and a scholarship pipeline for providers and universities
- Donors, sponsorships, disbursements and impact reporting without exposing identities
- Mentorships, safeguarding cases and a read audit of who looked at what

THE APPS

One platform, thirteen roles

for students, guardians, trainers, mentors, schools, providers, donors, verifiers, reviewers, safety, safeguarding, finance

each sees only what their role should

WHO SIGNS IN

> “A student in a remote town can be found by a university on the other side of the world.

GOVERNMENT EDITION

Local Government

Rating, planning, works, governance and finance for a council.

For municipalities, cities, districts and regional councils. The property register and rates, development and building applications on a statutory clock, permits and licences, animals, works, council meetings and the statutory registers — with a citizen app for residents.

WHAT IT RUNS

- Property register, valuations, rating categories and notice runs; arrears by ward
- Concessions, rebates, payment plans and hardship; rates modelling for the budget
- Development and building applications with days remaining and decision notices
- Permits, licences, inspections and renewals; animal register and infringements
- Council meetings, minutes, statutory registers and public notification
- Budgets, purchase orders and the general ledger

THE APPS

STRATA EDITION

Strata, Condominium & Body Corporate Management

Every scheme, every lot, every levy — in order.

For strata, condominium and homeowners'-association managers and the bodies corporate they serve. Schemes, lots and owners, levy runs apportioned by entitlement, arrears, maintenance requests through quote, approval and invoice, by-law breach notices, meetings, motions and votes — with an owner app.

WHAT IT RUNS

- Schemes, lots, owners and entitlements
- Levy rates, quarterly levy runs, notices and the direct-debit bank file
- Arrears dashboard and lots in arrears with automatic alerts
- Maintenance requests from owners, quoted, approved, completed and invoiced
- Meetings, motions, quorum and voting; minutes produced
- By-law breach notices that are locked once issued

THE APPS

Staff system

PROFESSIONAL SERVICES EDITION

Professional Services Firm

Jobs, time, milestones and work in progress.

For agencies, accounting practices, engineering consultancies and any firm that sells time and deliverables. Jobs and stages, tasks, a time clock and weekly timesheets, billing milestones, the WIP ledger and job profitability — with a client portal for engagements and invoices.

WHAT IT RUNS

- Jobs and projects with stages, tasks and a task board
- Time clock and weekly timesheets with bill and cost rates from the job
- Billing milestones and milestones ready to bill
- Project (WIP) ledger and WIP review; job profitability
- Leads, activities and the sales pipeline
- Client requests, announcements and calendar

RETAIL EDITION

Retail Shop

> *The till, the shelf and the books.*

For a shop or a small chain. Point of sale on any number of terminals, tender types, shifts and the Z report, stock on hand and movements, stocktakes and price lists — all landing in the sales ledger and general ledger as they happen.

WHAT IT RUNS

- POS terminals, tender types, shifts and sales
- Z report of shift takings and sales by terminal
- Stock items, categories, locations and the stock ledger
- Stocktakes and stock movements
- Price lists
- Customer feed, requests and online registration

POS & ORDERING EDITION

Grocer, Provisions & Online Ordering

The till, the shelf, the online shop and the suppliers — one record of truth.

For grocers, provedores and specialty food retailers who sell over the counter and online. Point of sale, stock, online orders picked and delivered, supplier purchase orders, goods receipts and automatic replenishment — with a customer shop and a supplier portal.

WHAT IT RUNS

- Point of sale with shifts and Z reports; price lists
- Online orders from the shop app on a dispatch board for picking
- Stock on hand, movements, stocktakes and below-reorder alerts
- Replenishment runs that raise purchase orders automatically
- Suppliers, purchase orders, shipment advices and goods receipts
- Supplier performance

THE APPS

Staff system

for shop manager, cashiers, stockroom, purchasing

counter, stockroom and buying desk

Online shop

for customers

catalogue, basket, orders and their status — order tonight, on the shelf tomorrow

Supplier portal

for suppliers

purchase orders to acknowledge, shipment advices, their record

WHO SIGNS IN

SCEPTRE FOODS EDITION

Agribusiness — Farm to Shelf

100% organic. Zero chemicals. Every carton traced to its field.

For growers' networks, packers and food processors. From a profit target to a crop plan to hectares and growers, contracts and advances, harvest intake with quality tests and lots, processing and cold-chain logistics, B2B orders by EDI, grower settlements — and a sustainability report for every customer.

WHAT IT RUNS

- Crop plans from budget to hectares; grower allocations, contracts and input financing
- Harvest dockets, weighbridge, quality gates and lot traceability certificates
- Processing, stock by best-before, valuation and inventory-to-ledger reconciliation
- EDI purchase orders from supermarkets; shipments with cold-chain monitoring
- Grower settlements and payouts; season and grower KPI dashboards
- Sustainability and provenance dashboard; certification expiries

THE APPS

CO-OP EDITION

Agricultural Co-operative

Your grain, your store, your co-op.

For grain and produce co-operatives where a member is customer, supplier and shareholder at once. Delivery dockets into pools, advances and pool finalisation, the rural store on member account, shares, contra settlement and patronage rebates — with a member portal.

WHAT IT RUNS

- Members with one number across the store account and the grower account
- Delivery dockets by commodity and grade; receivals and pool summaries
- Advances on delivery and pool finalisation at season end
- Store sales on member account; share register and share transactions
- Contra settlement between what the co-op owes and what the member owes
- Patronage rebate runs

GARAGE DOOR EDITION

Made-to-Measure Trades Manufacturer

Sales, service, restorations.

For garage-door, shutter, blind, fencing and similar businesses that quote, make, install and service. A product configurator builds the exact item from type, style, profile, colour and size; the quote becomes the order, the works order and the install job — with field scheduling and a customer portal.

WHAT IT RUNS

- Leads, opportunities and a quotation built by the door configurator
- Approved orders, works orders with bills of material and the production schedule
- Measure, install and service job scheduling for field staff
- Stock, stocktakes and stock on hand
- Delivery notes, order confirmations and invoices
- Sales pipeline and sales by model

THE APPS

Staff system
for admin, sales, production, installers, finance
showroom, factory and van

Customer portal
for customers
their quotes, orders, jobs and account

FIELD SERVICE EDITION

Field Service & Trades

Installed equipment, service contracts, scheduled jobs and site visits.

For service businesses with technicians on the road — HVAC, electrical, plumbing, security, equipment maintenance. Installed equipment at customer sites, service contracts and renewals, jobs with labour and parts, checklists, and location-stamped site visits — invoiced straight from the job.

WHAT IT RUNS

- Installed equipment register by customer site
- Service contracts and renewals due
- Service jobs with labour and parts lines; jobs by status
- Checklists for each type of visit
- Technician day list and site visits stamped with location
- Stock items and the stock ledger

THE APPS

Staff system
for service manager, technicians, office admin
the office and the van

Customer portal
for customers
their service jobs, equipment, requests and news

RENTAL & HIRE EDITION

Equipment, Vehicle & Party Hire

Rate cards, the hire fleet, bookings and contracts.

For hire businesses of any kind — equipment, vehicles, marquees, scaffolding. Rate cards, the hire fleet and its status, bookings in a diary, hire contracts, overdue returns and utilisation — with a portal for customers to see their bookings and contracts.

WHAT IT RUNS

- Hire rate cards by period
- Hire fleet with status and utilisation by asset
- Bookings diary and hire contracts
- Overdue returns
- Hire revenue day book into the sales ledger
- Customer requests, announcements and calendar

THE APPS

Staff system
for hire manager, hire desk, yard counter and yard

Hire portal
for customers
their bookings, hire contracts and requests

WHO SIGNS IN

FLUID TRADORS

Trades Marketplace

> *Every trade, every suburb, one tap — free for tradors, customers and suppliers.*

A platform for free-lance tradespeople and the customers who need them. Customers post a job; nearby tradors quote in a minute; the job is done, reviewed and paid on completion; parts are ordered from suppliers in the app; and sponsors reach every trador's pocket.

WHAT IT RUNS

- Tradors near me by distance, availability calendars and verified profiles
- Jobs, quotes, site visits, invoices and card payment on completion
- Reviews by trador and a showcase feed
- Parts orders to suppliers from inside the job
- Sponsor offers and advertising campaigns
- Commission by trade and payouts due to tradors

THE APPS

Platform system
for platform admin, operations, finance, partnerships
the operator's desk

Trador app
for tradespeople
jobs near you, quote, do the job, get paid

Customer app
for customers
find a trador, request a job, compare quotes, pay, review

Supplier & sponsor app
for parts suppliers and sponsors
parts orders and campaigns

WHO SIGNS IN

Trador · Customer · Supplier · Sponsor · Operator

> "The right trador, near you, today."

TIMESHEETS ADD-ON

Time & Attendance

Clock in, clock out, weekly timesheets — on top of any edition.

An add-on that drops onto any FLUIDERP institution. Employees clock in and out with their location recorded, weekly timesheets are built from the clock, and HR approves them — with a worker app.

WHAT IT RUNS

- Employee master
- Clock in and out with location
- Weekly timesheets with hours and week-ending calculated
- Approval status by week
- Employee timesheet report
- Worker feed, requests and registration

THE APPS

Staff system
for staff and HR
clock, own timesheet; HR sees everyone

Worker app
for workers
feed, calendar, requests

WHO SIGNS IN

Staff · HR

> “ Add it to any edition; the pay run gets the truth.

CRITICAL ASSET EDITION

Aviation Maintenance & Critical Assets

Configuration, component life, the due list and the release to service.

For airlines, maintenance organisations and any operator of life-limited equipment — aircraft, locomotives, mining fleets, vessels. The as-maintained configuration of every machine, the life of every component wherever it has been fitted, limits and due dates, defects and deferrals, work packages and the release to service.

WHAT IT RUNS

- Aircraft and machines, positions and the components fitted at every depth
- Counters and tech-log readings rolling down to every component's life
- Maintenance programme, limits and the due list; life-limited parts
- Directives and bulletins; defects, deferrals and carried-forward items
- Work packages, task cards and non-routine findings
- Licences and authorisations; utilisation by aircraft and month

THE APPS

Staff system
for engineers, planners, airworthiness, stores, quality
the hangar and the planning office

Crew app
for crew
report a defect from the flight deck, see the fleet and what is carried forward

WHO SIGNS IN

Engineer · Planner · CAMO · Stores · Quality

STANDARD IN EVERY EDITION

One set of books
Ledger, cashbook, sales, purchases and assets — shared by all

Every view audited

> “Which part is due, on which aircraft, by which flight — answered every morning.

INFRASTRUCTURE EDITION

Rail Corridor & Civil Infrastructure

Corridor assets by chainage, defects, geometry, possessions and the schedule.

For rail corridor authorities, road and pipeline owners and civil contractors. Assets along an alignment, inspections and defects on a map and strip chart, track geometry runs and exceedances, structural assessments, track possessions and a critical-path schedule — with a contractor app.

WHAT IT RUNS

- Alignments, maintenance zones and corridor assets by chainage
- Inspections and defects with severity, due date and restrictions — on the map
- Track geometry runs, readings and exceedances
- Structural assessment register
- Possessions (track access) and the maintenance schedule against baseline
- Critical path, float and project health

THE APPS

Staff system
for corridor manager, track engineers, inspectors, planners, contracts
the control centre

Contractor app
for contractors
their defects and possessions — and submit an inspection with location and photos

WHO SIGNS IN

Corridor manager · Track engineer · Inspector · Planner · Contracts

> “A defect photographed on the track is on the plan with a possession booked by the afternoon.

SMART GRID EDITION

Electricity Distribution & Smart Grid

> *The network as switched, the data as measured, the bill as explained.*

For electricity distributors, embedded networks and utilities. The network and its switch states, outages and restoration options, field work, smart-meter interval data and quality, plant tags, tariffs with time-of-use blocks and standing charges, customer accounts and bills that explain themselves — with a customer app.

WHAT IT RUNS

- Network points, circuits, switches and feeders — the network as switched today
- Outages, who is affected and the restoration options
- Field work and field response
- Meters, interval reads, point reads and meter-data quality
- Tariff book, time-of-use calendar, allowances and bills
- Where every unit went — the bill line by line

THE APPS

Staff system
for control room, metering, field, tariff, planning
the network operations centre

Customer app
for customers
outages, their bills, their usage explained — and send a meter reading

WHO SIGNS IN

Control · Metering · Field · Tariff · Planning

STANDARD IN EVERY EDITION

> "The customer's bill explains itself — which block, which rate, which allowance.

TELECOMMUNICATIONS EDITION

Telecommunications Provider

One rating engine, three industries — and the bill that explains itself.

For telcos, ISPs and resellers. Plans, rate blocks and recurring charges, subscribers and bundles, usage rated line by line, invoices, service orders with the steps that decide the delivery date, number porting, and wholesale interconnect traffic settled against the partner's statement — with a subscriber app.

WHAT IT RUNS

- Plans, rate blocks, rating calendar, recurring charges and the offer table
- Subscribers, bundles and usage records — where every megabyte went
- Invoices with every line explained
- Service orders, fulfilment tasks, dependencies and float
- Interconnect partners, traffic and settlement statements
- The partner's statement reconciled against ours

THE APPS

Staff system
for commercial, fulfilment, billing, wholesale, care
the carrier's back office

Subscriber app
for subscribers
bills, usage explained, bundles, their order with the real date — and ask to port a number

WHO SIGNS IN

Commercial · Fulfilment · Billing · Wholesale · Care

Feed, calendar, two-way messages and self-registration

> “ Not a progress bar — the step that actually decides the date.

METEOROLOGICAL EDITION

Meteorological & Forecast Services

> *The forecast, the observation, and the score we are paid against.*

For weather bureaus, commercial forecasters and marine and aviation weather services. Observing stations and observations, forecast products and issues, verification of every forecast against what happened, severe-weather warnings, accuracy contracts with clients, voyage advice leg by leg and aerodrome decisions.

WHAT IT RUNS

- Observing network, observations and point reads with quality checks
- Forecast products, forecasts issued and the observations used to verify them
- The scorecard: hits, misses, false alarms and skill against persistence and climatology
- Severe weather warnings — in force, expired and whether they eventuated
- Accuracy contracts and the credit owed when the promise is missed
- Voyage advice, tracks, speed-loss tables and aerodrome decisions

THE APPS

Staff system

for network, forecast desk, verification, marine, aviation

the forecasting office

Client app

for clients

warnings, their accuracy guarantee, their products' scorecard, voyage advice — and send an observation

THE FLUIDERP PLATFORM

FLUIDCLOUD

> *Describe your business. FLUID AI configures it. The cloud runs it. Download your app.*

FLUIDCLOUD is how every edition in this brochure is delivered. A client describes their organisation; FLUID AI assembles the configuration; the cloud provisions the system and the apps; a partner or our own team implements it; and support, licences and releases are managed in one place. FLUIDCLOUD itself runs on FLUIDERP.

WHAT IT RUNS

- Request a system — describe the business, review the configuration, approve
- Provisioning runs, client systems and clusters, licences and keys
- Releases and downloads for every app
- Support tickets with priorities; open tickets by priority
- Implementation projects with stages and tasks
- Partners, referrals and monthly recurring revenue

THE APPS

Staff system

for Sceptre Tech & Science cloud, operations, support, implementation, finance

the platform desk

Client portal

for clients

request a system, see their systems, downloads, tickets, project and account

Partner portal

for implementation partners

their clients' systems and tickets, their implementations — and refer a client
