PRICE LIST · ALL PRICES IN USD

Simple, per-area pricing

> *Five users, one area, one hundred dollars a month.*

FLUIDERP is priced in packs: five named people in one area of the business. Grow a pack one user at a time, open your customers a portal, and pay yearly to get two months free. Implementation is quoted by your partner; infrastructure is yours to choose — on FLUIDCLOUD or on your own hardware.

USER PACK

5 named users in one area

$100 USD / month

or $1,000 USD a year — two months free

Up to five modules in each area. Buy as many packs as you need.

EXTRA USER

one more named user in an area

$25 USD / month

or $250 USD a year — two months free

Adds one person to a pack. From four extra users, a new pack is the better buy.

CUSTOMER PORTAL

per 100 customers

$200 USD / month

or $2,000 USD a year — two months free

Your customers sign in on the web or their phone: orders, invoices, payments, requests and messages.

HOW IT WORKS

- **Pay monthly or yearly.** A year costs ten months — two months free on every pack, extra user and portal.
- **Named users, by area.** A pack gives five people the modules of one area; a person working in two areas needs a seat in each.
- **Mix freely.** Ten finance users are two Finance packs; twelve are two packs and two extra users.
- **Every edition, the same way.** Sector areas — mining operations, school administration, patient care — are priced exactly like the core areas.

INCLUDED

- Use of the licensed areas by named users
- New releases and updates of those areas
- Web sign-in and the phone apps for licensed users
- Standard in every edition: one set of books, audit, e-signatures and retention, the AI Clean Gate, messages

NOT INCLUDED

- **Infrastructure** — FLUIDCLOUD hosting or the client's own servers on site, quoted separately
- **Implementation** — quoted by your FLUIDERP partner
- **Custom development** and third-party integrations
- **Taxes** where they apply

> “Forty users of a manufacturer, every area they work in, and a portal for a hundred customers — ten thousand dollars a year.

THE AREAS · A WORKED EXAMPLE

What a manufacturer pays

Six areas, forty people, a hundred customers online.

THE CORE AREAS — FIVE MODULES IN EACH

Finance
ONE PACK · 5 USERS

- General ledger
- Cashbook & bank
- Receivables
- Payables
- Fixed assets

Sales
ONE PACK · 5 USERS

- CRM
- Quotations
- Sales orders
- Deliveries
- Invoicing

Purchasing & Stock
ONE PACK · 5 USERS

- Suppliers
- Purchase orders
- Receipts
- Stock & warehouses
- Stocktakes

Manufacturing
ONE PACK · 5 USERS

- Bills of material
- Routings
- Works orders
- Production schedule
- Work in progress

Projects & Services
ONE PACK · 5 USERS

- Projects
- Milestones
- Timesheets
- Service requests
- Help articles

Plant Maintenance
ONE PACK · 5 USERS

- Equipment
- Preventive plans
- Work orders
- Spares
- Downtime & KPIs

EXAMPLE — A MANUFACTURER WITH 40 USERS

AREA	USERS	PRICED AS	USD / MONTH	USD / YEAR
Finance	10	2 packs	200	2,000
Sales — CRM, sales orders, deliveries, invoicing	5	1 pack	100	1,000
Purchasing & Stock	5	1 pack	100	1,000
Manufacturing	10	2 packs	200	2,000
Projects & Services	5	1 pack	100	1,000
Plant Maintenance — engineers	5	1 pack	100	1,000
Customer portal orders, invoices, payments and requests online	100 customers	1 portal	200	2,000
Total	**40 users**		**1,000**	**10,000**

$10,000
a year, paid yearly — against $12,000 paid monthly

$2,000
saved by paying yearly: two months free

$16.67
per staff user a month, every module of their area

$20
per portal customer a year

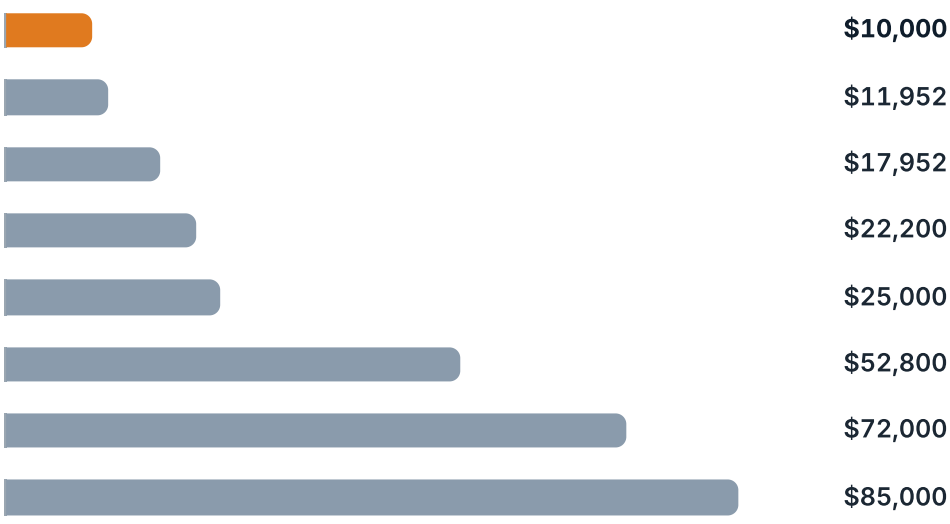

HOW WE COMPARE · LIST PRICES, OCTOBER 2026

The same forty users, elsewhere

> *Below Odoo. A fifth of Business Central. An eighth of NetSuite.*

The manufacturer on page 2 — forty staff users across finance, sales, purchasing, stock, manufacturing, projects and maintenance — priced on the leading ERP platforms. Licence only, a year, in USD: implementation and infrastructure are left out for everyone. FLUIDERP's figure includes its customer portal; the others' do not.

ANNUAL LICENCE FOR 40 USERS — USD

THE NUMBERS

PLATFORM	A YEAR	× FLUIDERP	PER USER A MONTH
FLUIDERP	$10,000	—	$16.67 + portal
Odoo Standard	$11,952	1.2×	$24.90
Odoo Custom	$17,952	1.8×	$37.40
Zoho One	$22,200	2.2×	$46.25
Acumatica	$25,000	2.5×	$52.08
Business Central Premium	$52,800	5.3×	$110.00
SAP Business One	$72,000	7.2×	$150.00
NetSuite	$85,000	8.5×	$177.08

Published list prices and third-party estimates, October 2026; vendors may discount. Acumatica and NetSuite are quote-only — lowest published estimates shown. Business Central requires Premium for manufacturing. Open-source options (ERPNext, Odoo Community) carry no licence fee and are self-supported. IMPLEMENTATION · PARTNERS

Partners implement, FLUID supervises

> *Your partner sets the implementation price; our team stands behind the go-live.*

Implementation is quoted and delivered by your FLUIDERP partner, who knows your sector and your region. While partners are building their experience — and on the first versions of each edition — every implementation is supervised by the FLUID team at Sceptre Tech & Science, from the scope to the go-live sign-off.

HOW AN IMPLEMENTATION RUNS

1
Scope
The partner maps the client's areas, users and data, and proposes the packs.

2
Configure
The edition is shaped to the client — configuration, not custom programming.

3
Migrate & train
Opening balances, customers, stock and assets loaded; users trained by area.

4
Go live
FLUID reviews and signs off before the client runs on it.

WHAT A PARTNER EARNS ON THE EXAMPLE

Commission on the $10,000 annual licence of the manufacturer on page 2 — every year the client renews — before the partner's own implementation fees.

Ten clients like this one bring $100,000 a year: the threshold for Platinum.

Comparable ERP implementations for a manufacturer of this size typically run USD 45,000–120,000; with FLUIDERP's licence, the client's total still lands well below the alternatives.

TIER	COMMISSION	A YEAR
General Sales	15%	$1,500
Standard	25%	$2,500
Bronze	30%	$3,000
Silver	35%	$3,500
Gold	40%	$4,000
Platinum	45%	$4,500
